1. INVOLVED APPLICATIONS

To keep up with the latest web technology, eBS is going to re-develop existing e-Forms to adopt a new web form design by stages.

The new design conforms to the World Wide Web Consortium (W3C) Web Content Accessibility Guidelines (WCAG) 2.0 Level AA requirements to the maximum extent possible.

The new design also adopts responsive web design which provides an optimal viewing and interaction experience to users. The web page is easy to read and navigate with a minimum of resizing, panning, and scrolling across a wide range of devices (from stationed desktop computers to mobile devices like smart-phones and tablets).

With effective from 2017-01-11, the following applications have been re-developed using the new web form design:

Form ID	Form Name
eBS0001	Pre-Arrival Notification Before Entering Hong Kong Waters
eBS0002	Application for Declaration of Arrival (OGV)
eBS0004	Application for Declaration of Departure (OGV)
eBS0020	Application for Immigration Pre-arrival Clearance (OGV)
eBS0021	Application for Immigration Pre-arrival Clearance (Mainland River/Coastal Trade Vessel)
eBS0022	Resubmission of Immigration Pre-arrival Clearance (OGV)
eBS0023	Resubmission of Immigration Pre-arrival Clearance (Mainland River/Coastal Trade Vessel)

With effective from 2017-08-16, the following applications will be re-developed using the new web form design:

Form ID	Form Name
eBS0003	Application for Declaration of Arrival/Departure (Local Vessel)
eBS0006	Request for Transcript of Register (HK registered vessels)
eBS0007	Repair Permits
eBS0008	Application for Multiple Entry Permit (MEP) - Multiple & Single (Local Vessels)
eBS0012	Application for Removal Permit for Dangerous Goods of Class 1 (Explosives) (Local Vessels)
eBS0013	Application for Carriage Permit for Dangerous Goods other than Class 1 and Class 7 (Local Vessels)
eBS0030	Agreement and Lists of the Crew

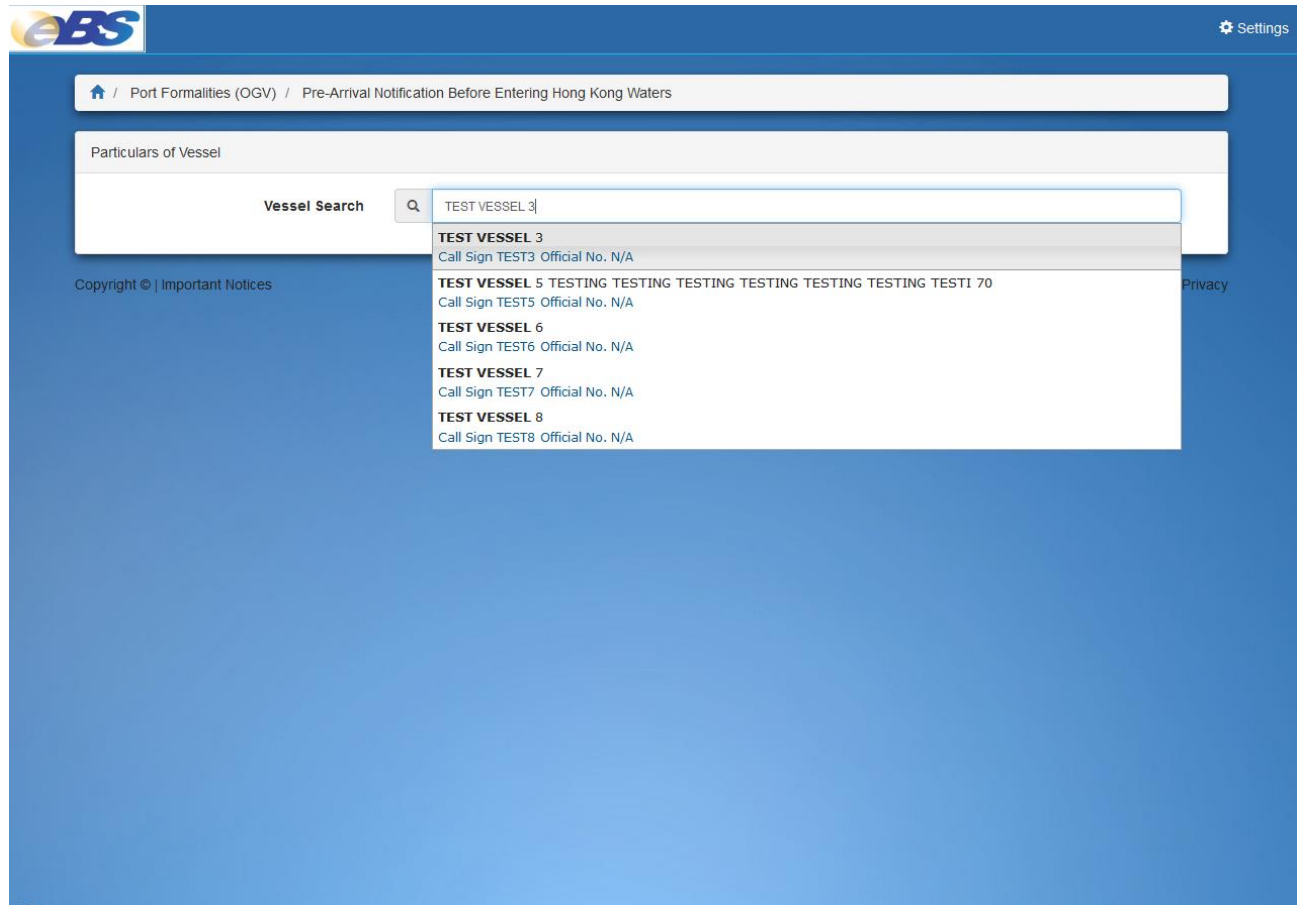

2. NEW WEB FORM DESIGN

2.1. Key Features

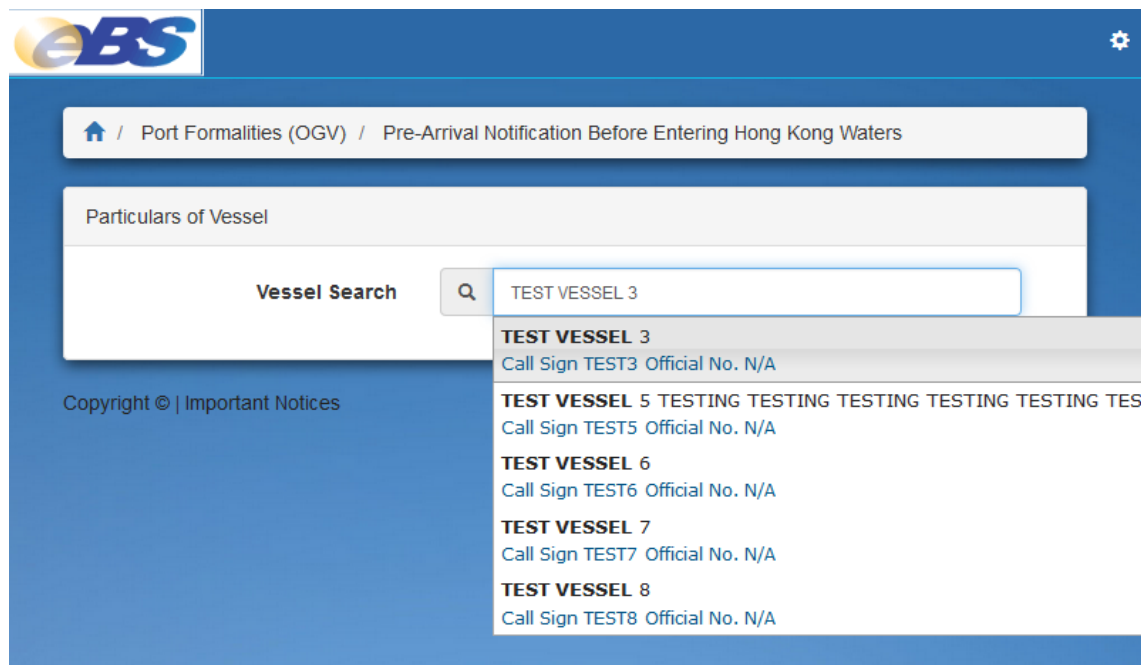

2.1.1. Vessel Search

- 1 Applicants can search their vessels by different criteria depending on different applications.

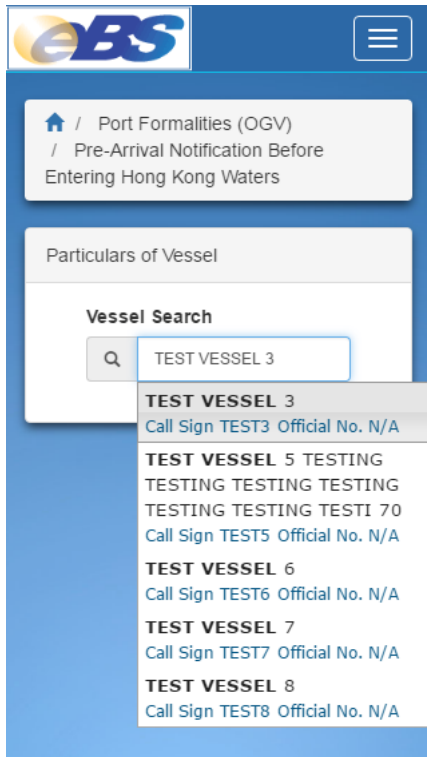

1.1 Desktop computer view

1.2 Tablet view

1.3 Smart-phone view

- 2 After selecting the vessel, particulars of vessel will be shown and the detailedness of particulars will vary from application to application.

2.1 Desktop computer view

Home / Port Formalities (OGV) / Pre-Arrival Notification Before Entering Hong Kong Waters

Particulars of Vessel

Name of Vessel (English)	TEST VESSEL 3
Call Sign	TEST3
Official No.	N/A
National Colours	ANTIGUA & BARBUDA
Type of Vessel	CAR CARRIER
Gross Registered Tonnage	1,000.00
Length overall of vessel in metres (LOA)	N/A

Application Details

Pre-Arrival Notification Before Entering Hong Kong Waters

Number of crew including master *

Number of passengers *

2.2 Tablet view

Home / Port Formalities (OGV) / Pre-Arrival Notification Before Entering Hong Kong Waters

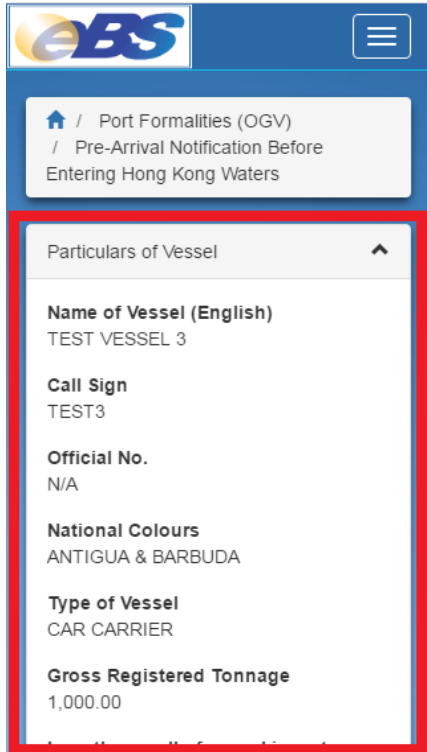

Particulars of Vessel

Name of Vessel (English)	TEST VESSEL 3
Call Sign	TEST3
Official No.	N/A
National Colours	ANTIGUA & BARBUDA
Type of Vessel	CAR CARRIER
Gross Registered Tonnage	1,000.00
Length overall of vessel in metres (LOA)	N/A

Application Details

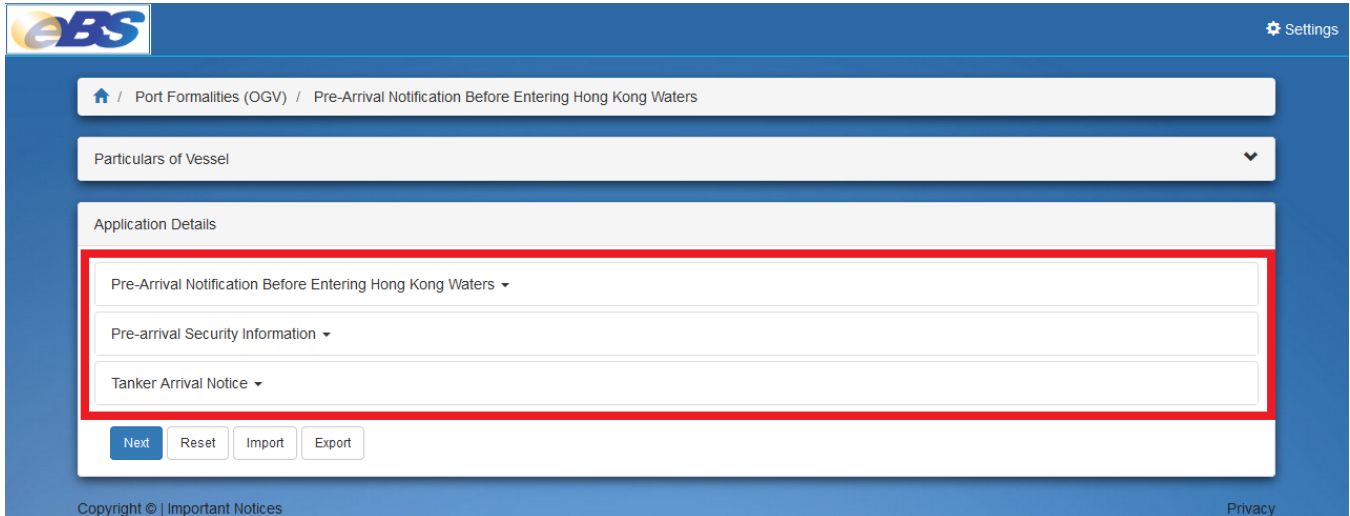

Pre-Arrival Notification Before Entering Hong Kong Waters

2.3 Smart-phone view

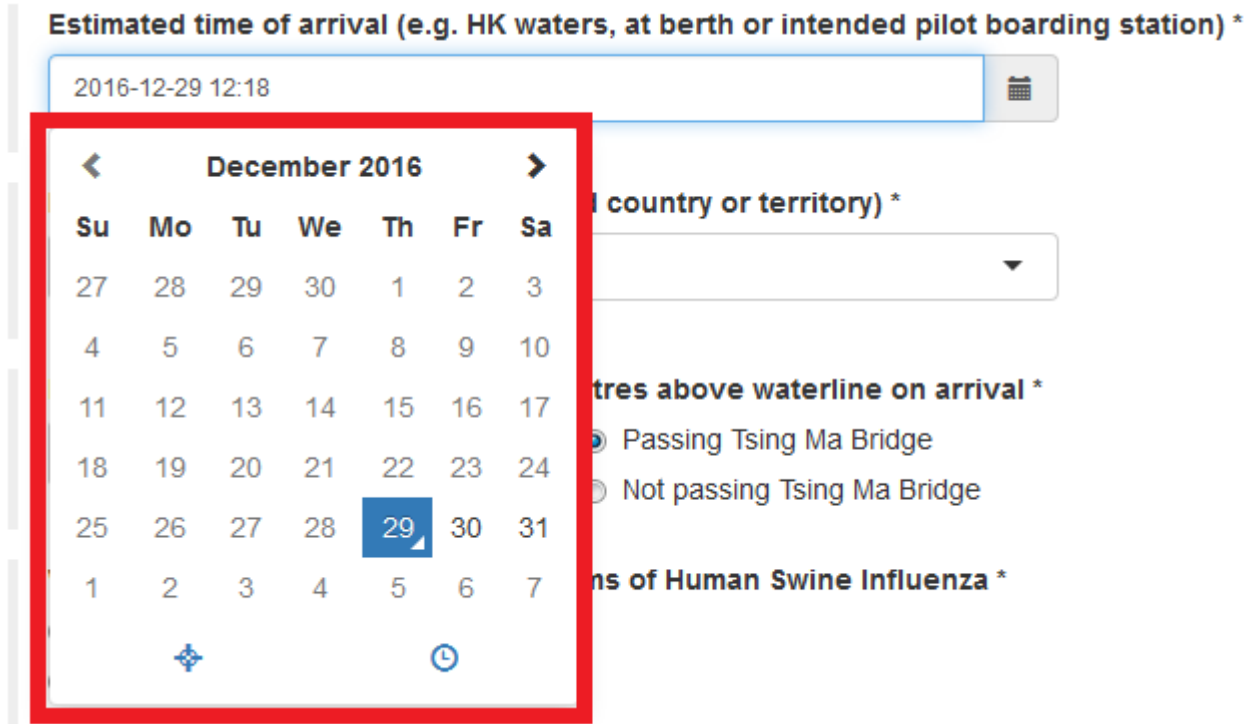

2.1.2. Panels

Panels group related information and only one panel can be expanded each time so that the number of times scrolling the page up and down can be reduced.

2.1.3. Date/Time Pickers

Date/time pickers allow applicants to select the date/time from a pop-up calendar so that applicants can input the date/time more conveniently and the pickers can prevent applicants from inputting invalid date and invalid format.

2.1.4. Dynamic Tables

Dynamic tables allow applicants to input a list of data. The list of data can be manipulated easily by adding, editing and deleting the items.

Cargo Types, Quantity and Type of transaction

	Cargo Type	Description	Tonnes	Transaction		
(1)	BITUMEN	Desc 1	1	Loading		
(2)	CHEMICAL PRODUCT	Desc 2	2	Discharging		

+ Add Cargo Details

2.1.5. Import/Export Functions

Import/export functions, supported by most modern browsers, allow applicants to save/retrieve data for future use. These functions can make the data input less time-consuming.

2.2. Preview Application

Content of the applications can be previewed before submission by downloading the PDF. After confirming the entries, tick the check box of the Declaration and click “Submit” button to submit the application.
